I. Introduction

This Business Plan is a detailed description of Gastronomy Temple proposal. The project’s main objective is to import international products from top gastronomies from all over the world, while at the same time, offering services to improve the customer experience. We found that the combination of these products and the services we are offering creates a new niche in the Spanish market.

All through the study is a detailed description of all areas and stages of the project, including, the Sector & Environmental Analysis, Marketing, Operations, Human Resources, Finances. Last but not least, the implementation plan of how and when it will all be developed and accomplished.

These aspects have been analyzed and put together to determine the final investment required to carry out this project and how profitable this project could be.

II. Brief Description:

Our Business plan is the creation of a premium shop that adapts to the needs to the customers, stepping away from the traditional shopping stores to make the entire experience more enjoyable. Our plan is divided in two main categories: products and services.

✓ Our products: Wide range of high quality products imported from their country of origin.

✓ Services: Our services make shopping easier for our customers. Some of our services are:

  ➢ Advisors: Personnel specialized in our products, capable of assessing the customer on what they should buy and how to prepare delicious recipes with them.

  ➢ Chef: Bookable Chef with international vision and ability to create recipes and menus for clients, in the comfort of their home. He will go to the customer’s home and prepare the meal, when everything is done, he will pack up everything and leave everything spotless. This service will grant the customer more free time to get ready for entertaining and more time to spend with his / her guests.

  ➢ Website: Offers the customer the opportunity to purchase our products and services from anywhere in the world at any given time. Also, the recipe section has a list of recipes created by our chef where the customer can purchase the products from the ingredient list. After the purchase, the groceries will be delivered to any address in Madrid.
➢ Tasting Sessions: Every Sunday, GT will offer tasting sessions from a different part of the world based on creations done with our products to show the customers our selection and a taste of every product.

➢ Takeaway Meals: Light meals prepared for our busy working customer that can only take short lunch times. The customer can choose to take the lunch with them or have it in our facilities.

➢ Cooking classes: GT is going to offer you every weekend cooking class from all over the world.

III. Company Mission

At Gastronomy Temple (GT), we are dedicated to offering high-quality international products and great services to our customers.

IV. External Analysis:

IV.I Sector Data:

IV.I.I Considerations:

1. Political:

Currently, Spain is undergoing a major economic crisis, which has its origin in a global crisis; however, Spain’s situation has been aggravated by the special circumstances of our economy, heavily dependent on the construction sector, which has caused the unemployment of more than 4 million people.

Among the major challenges faced by the Spanish society in the coming years are: fighting unemployment, improving the economic competitiveness, more control over immigration and the struggle against social inequalities.

According to a recent survey done by the Centro de Investigaciones Sociológicas (CIS), the Spanish community is divided in two, those who are pessimistic in regards to the current situation, the other half believes the situation will get better on 2011.

We belong to this second half of the population, for we are very optimistic. It is partly the society’s responsibility to do something about the current situation in order to improve it.

Some important political factors to take into account are the entry of new members to European Union and the political stability of the country.
2. Legal:
   - State:
     - Health: Tobacco Regulations
     - Labor: Labor Reforms
     - Commerce: Retail Businesses Regulations
     - Food Safety: Beef Labeling Regulations
   - Local:
     - Outdoor Advertising Ordinance (Draft-Madrid)

3. Environment:
   - Royal Decree Project: Environmental Management Collection (Batteries & Accumulators) (Draft)
   - Project Development of the Noise Law Royal Decree
   - Packaging Law Amendment Proposal
   - Environmental Responsibility Act (Draft)
   - Hygiene: Directions of Animal Products for Human Consumption.
   - General Principles & Requirements of Food Laws.
   - Amendment to Articles 11, 12, 16, 17, 18, 19 & 20 of Regulation 178/2002.
4. Economic Factors:

- **Consumer Price Index (Growth %):**

  The Consumer Price Index Growth, %, measures changes in the price level of consumer goods and services purchased by households. The graph (Annex XV) shows that CPI has decreased a 0.5 % from 2010 to 2011, the prices paid by urban consumers for a market basket of consumer goods and services has decreased, but the forecasting shows that it will increased close a 1% by 2015.

- **Exports, total as a % of GDP (Absolute):**

  Exports in Spain as the graph in the Annex XVI shows have decreased and it will continue to decrease even more during the next five years. Spain has a big lack of exports.

- **Final Consumption Expenditure, Local Currency (Absolute and Per capita) Millions Euros:**

  The final consumption expenditure as the graphs in the Annex XVII (Absolute) and XVIII (Per capita) show an increased during the years, which mean an increased in the expenditures by the Spanish population.

- **Household Income, Gross, Local Currency (Growth %):**

  Household income is the most comprehensive measure of a country's citizens material well-being. It includes not just income from employment, but every form of income, including all retirement income, near cash government transfers, and investment gains.

  The graph in the Annex XIX shows a negative Household Income growth in 2010 but it is recovered in 2011 and the forecast shows and increased by 3.9% in 2015.

- **Imports, Total as a % of GDP (Absolute):**

  The graph in the Annex XX shows a tendency to increase the % of imports during the next years, it will arrive to represent a 33% of GDP absolute by 2015.

- **Inflation (Absolute) %:**

  Inflation is a rise in the general level of prices of goods and services in an economy over a period of time. When the general price level rises, each unit of currency buys fewer goods and services. Consequently, inflation also reflects an erosion in the
purchasing power of money – a loss of real value in the internal medium of exchange and unit of account in the economy.

The graphic in the Annex XXI shows a decreased of 0.6 % inflation from 2010 to 2011, but forecast shows a increase until 1.9% by 2015, so the general level of prices of goods and services will rise over that period of time.

**-Private Final Consumption Expenditure, Local Currency (Absolute, Per Capita) Euros:**

The graphs XXII and XXIII in the annex show an increase in the private final consumption expenditure, that mean that the tendency is to increase the private expenditure, people will expend more money in services and goods as forecast shows.

**-Gross domestic product (GDP):** Refers to the market value of all final goods and services produced within a country in a given period. It is often considered an indicator of a country's standard of living. The graph in the Annex XXIV shows a negative GDP growth (%) of -4% in 2009, it is recovered in 2010, 2011 with a 1%, 2% respectively and it will increase until 4% by 2014.

### IV.I.II Market

The Spanish Food Retail Industry had total revenue of $130.5 billion in 2009, representing a Compound Annual Growth Rate (CAGR) of 4.5% for the period spanning 2005-2009.

Hypermarkets, supermarkets, and discounters sales proved the most lucrative for the Spanish Food Retail Industry in 2009, with total revenues of $56.2 billion, equivalent to 43.1% of the industry's overall value.

The performance of the industry is forecasted to decelerate, with an anticipated CAGR of 3.3% for the five-year period of 2009-2014, which is expected to drive the industry to a value of $153.4 billion by the end of 2014.

#### 1. Market Size:

The Spanish Food Retail Industry has experienced steady growth in recent years and although deceleration is forecasted, growth should continue until 2014.

The Spanish Food Retail Industry had total revenue of $130.5 billion in 2009, representing a Compound Annual Growth Rate (CAGR) of 4.5% for the period spanning 2005-2009. In comparison, the French and German industries grew with
CAGRs of 2.9% and 2.1% respectively, over the same period, to reach respective values of $224.6 billion and $234.8 billion in 2009.

Hypermarkets, supermarkets, and discounters sales proved the most lucrative for the Spanish food retail industry in 2009, with total revenues of $56.2 billion, equivalent to 43.1% of the industry's overall value. In comparison, convenience stores and gas stations generated sales of $36.2 billion in 2009, equating to 27.7% of the industry's aggregate revenues.

The performance of the industry is forecasted to decelerate, with an anticipated CAGR of 3.3% for the five-year period of 2009-2014, which is expected to drive the industry to a value of $153.4 billion by the end of 2014. Comparatively, the French and German industries will grow with CAGRs of 3% and 2.5% respectively, over the same period, to reach respective values of $260 billion and $265.5 billion in 2014.

2. Market Trends:

Everyday the customers’ needs and tastes change. The market is becoming more demanding and health conscious. Lifestyles are a big part of this. Whether it is because of a health issue or a simple change in lifestyle, the demand for vegetarian, gluten-free, sugar-free products is increasing more and more.

There are other factors to take into account, for example, the introduction of women in the labor market. The woman’s role has changed dramatically in the past few decades. They’re spending less time in the kitchen but at the same time want to provide their families with healthy food choices.

Globalization has also given a boost to changes in the market, by bringing countries closer together, the demand for international gastronomies has increased all over the world.

3. Market Segments:

Hypermarket, Supermarket, & Discounters represents the largest segment of the Food Retail Industry in Spain, accounting for 43.1% of the industry's total value. As for the Convenience Stores & Gas Stations segment, it accounts for a 27.7% of the industry.

Gastronomy Temple falls in the Food Retail category of Foods and Drinks Specialists with a 25.4%.
4. Market Characteristics:

The company primarily operates through one segment: supermarket and specializing in international gourmet products. The business model is based mainly on “Total Quality.” Through the management model, it satisfies the company’s five components: Employer, Employee, Supplier, Society and Capital. The shop operates through the shopping basket menu concept, as well as, takeaway menu, and personal chef concepts. Its main activity is to provide quality international products (foods and beverages) and top-notch services such as professional assistance, delivery, chef (on location or at customer’s request), and online services.

IV.I.III Competitors

Some of our main competitors are specialty stores in Madrid, like the Gourmet Shop of the Corte Inglés, Sánchez Romero Supermarket, and Mallorca.

1. Market Shares:

Spain accounts for 7.8% of the European Food Retail Industry value. Another large representation of this industry would be Germany, which accounts for a further 14.1% of the European industry.

The Specialized Foods and Drinks have a size of 25.4% of the market value.

2. Success Strategies:

In order to achieve success, a combination of key strategies must take place:

a. Marketing:

Marketing is a very useful tool to understand the market and stay updated with information on the rest of the market, which will give the company competitive knowledge. The company must also have a clear understanding of the client profile and each specific client’s portfolio. At the same time stay updated with products and pricing policies, have an optimum planning for the use of the resources, clear distribution channels. And last but not least, create an appealing publicity and promotion campaign.

b. Customer Services:

The food and drinks market has already been highly explored; therefore, differentiation is a key factor for success. An important strategy to use is providing high quality customer service. By providing well-trained staff, delivery services, cooking
classes, takeaway meals, and chef services, Gastronomy Temple will create a new experience for the customer to enjoy.

c. Organizational Structure & Management:

It is easier for any company to achieve success when it is properly organized internally first, success from outside will come later.

IV.I.IV Distribution Channels:

Gastronomy Temple will have several different types of distributions: our stores, our website, cooking classes and catering services for which we are hired.

In the future we will consider the possibility of expanding to other cities and/or countries. Establishing our shops in cosmopolitan areas. As well as, supplying four / five star restaurants.

IV.I.V Suppliers:

Our suppliers will be international exporters of high quality products from all parts of the world. The amount of suppliers will increase as our demand for more variety in our products increases.

V. Sector Analysis:

V.I.I 5 Forces of Porter:

1. Barriers of Entry & Exit:

In this market, the barriers of entry are medium because the initial investment required won’t be so high, however, new competitors may arise because of this low investment.

The initial investment won’t be so high due to the fact that we will rent the infrastructure, which is only between 350-500 m². The investment in equipment and products will represent the largest part of the investment.

The barriers of exit are relatively low. Since our infrastructure will be rented, it is easy to just finalize the contract with the owners. Also, the fixed assets can be sold to any other company in the market because they are easily used in other businesses.
2. Potential New Competitors:

   New competitors arise everyday. The low barriers of entry and exit make it easier to enter this field. However, at this time, there aren’t any direct competitors.

3. Customer Bargaining Power:

   Our business is providing a large range of products and services, that aren’t offered by anyone else in the market. Because of the exclusivity we have the bargaining power over our customers.

4. Possible Competitor Response Strategies:

   We are new in this market; therefore, other companies with higher bargaining power against suppliers, for example, Corte Inglés, could easily steal our products and services, automatically giving them competitive advantage.

5. Supplier Bargaining Power:

   At the moment we have low bargaining power against suppliers because we are just entering this business we have no experience in, also, because we are small we can’t buy in big volumes. As well as, there are a limited number of suppliers, giving us little room to choose from.

   There are two factors to consider: our future plans include expansion, and we are going to have much more experience in the market. This will increase our bargaining power.

6. Substitute Products or Services:

   We are improving the shopping experience for the customer. Up until this point, nobody else is offering the same combination of products and services that we are offering, so there is little room for substitution from our customers to other businesses.

VI. SWOT

   **Strengths:** High quality of products from all over the world, wide range of services, strategic location of our shops, well trained and highly experienced staff and sustainable orientation.
Opportunities: After we have succeeded with our first shop, we can expand, whether opening new shops, finding new niches, growing as suppliers or franchising. By doing this, we will ultimately increase tourism.

Threats: Rise or modification of import taxes, worsening of the economic crisis, fluctuations in currencies, low margins of profits, Spanish population accustomed to the typical food, and; last but not least, the specialization of supermarkets into gourmet shops.

Weaknesses: As we are new in this line of business, we have little experience in the market; there are only a few options for our establishments. Also, because we are new, we have no brand recognition, influencing the small bargaining power against suppliers.

VII. Strategic Aim

In the short-term GT expects to achieve a position that gives us acknowledgement and great reputation in the gourmet industry. After gaining some experience, in a few years, we want to become a leading company in this market.

The process begins with a cautious research on the preferred products by our potential customers, after a year, we expect to have gained some experience selling our products. For this particular reason, the testing sessions will be a great aid, that is, we will be offering a selection of our products while the customers are in their shopping process.

Our business is based on two main strengths: the quality of our products and services and customer satisfaction. High quality standards will be established since the first day. GT will be careful choosing the suppliers, as we want only the best products. Also, our focus on customer satisfaction gives GT the competitive advantage of facing clients with a completely different way of presenting the products and taking care of our customers.

VIII. Operations Plan

VIII.1 Product Development

Gastronomy Temple is an international based company specialized in selling products from the world’s top gastronomies as well as offering services that make the shopping and dining experience more enjoyable for the customer. Our business model is detailed below:

- Sauces and Spices: Paprika, Saffron.

-Takeaway: As well as offering our products by unit, Gastronomy Temple will provide the option of selecting meals from pre-established menus and the possibility of just purchasing the meal or dining inside our facilities in a space appropriately accommodated for the customers. The menu will have a wide variety of products unifying the gastronomies for people and their preferences. Whether an employee with short lunchtime or the international tourist, the menu will have something for everybody.

-Chef: Another service that we offer is a trained chef that is capable of cooking recipes from any gastronomy supplied by our shop. The Chef and the Client will work together to create a menu for the occasion and later the chef will go to your home to prepare everything, when finished, the kitchen will be left spotless. This service is ideal for dinner parties.

-Internet: Gastronomy Temple has an easy to use website, where the customer can shop from the comfort of their home and have the products bought delivered by us. As well as a detail of the products offered, the website will include the possibility of reserving our chef of a special event, recipe ideas and their ingredient lists.

VIII.II Suppliers

We are going to start to work with the suppliers that offer the best conditions and wide range of products. With time, the number of suppliers is going to increase as we
are going to present more products these gastronomies, or increase the number of the countries presented. Another option will be to work with small suppliers; therefore, we will have more bargaining power.

To gain more bargaining power with the suppliers we also are going to try to create a net of partners-restaurants that purchase some of the products that we do. We are going to join efforts with them, aiming to have better conditions from the supplier as we are going to gain more bargaining power.

-Suppliers of China products: Anhui Haibe Import & Export Co., Ltd., Anshan Dongda Food Co., Ltd, China National Tree Seed Corp Forest Foods Dept, Chinafish (Dalian) Imp.&Exp. Co., Ltd., Dahong Industrial Co., Ltd, Jinxian Shanyang Freezing

### VIII.III Product / Service Development

Gastronomy Temple will begin its operations in Madrid, Spain on the 1st of January 2012. This includes one shop with everything mentioned above. The location of this shop is in the Barrio de Salamanca area; this is because of the popularity of the area in tourism, as well as, a commercial area. After the business begins to be profitable and successful, GT will study the optimum city in Spain to expand. As well as, begin contact with important events taking place in Spain and other countries nearby in order to offer our catering services.

In an optimist situation, GT would like to open its doors in London next year, in time for the 2012 Olympics. All this should be assuming that London provides the proper characteristics for the establishment of our business. From there, more expansion would be considered accordingly with the profitability and stability of the business.

As well as expanding geographically, GT would study the trends in eating habits and products in the market in order to offer them to the customer.
VIII.IV Manufacture / Production

Material Resources:

-Gastronomy Temple is going to be located in one of the most important areas in Madrid. This area is very dynamic and frequented by tourists, locals and business people. Also this area is near one of the most important business centers in Madrid such as Paseo de la Castellana y Paseo de Recoletos, this will be very important for us in order to boost our take away service. At the same time it’s easy for our customers to access because there are 6 metro stops and one Renfe Cercanías stop less than 1km² away.

The space required for the storage and sales purpose is 400m². The estimated cost for renting in this area is around 8000 € per month. The space distribution of our business is shown below:

<table>

### VIII.V Machinery:

- Fridge room: 12 m² is required to store the products.
- Registers: Touch screen.
- Machines to cut the cold meat.
- Refrigerated counters for those products that need to be preserved.
- Weight scales.
- Scanners for inventorying.
- TPVs for credit card payments.
- Vacuum packaging machine for the cold meat.
- Stands: Shelves to show the products.
- Office: Computers, Printer, Label maker.
- Microwave.
- Ovens.
- Stoves.
- Fridge for the kitchen.
- Apparel: Employee uniforms, Aprons.
• Products: Wine, Liquors, Cheeses, Meats, Fruits, Spices, Oils, Seafood, Pasta, Bread, Jams, etc.

VIII.VI Processes:

Our main processes are related to the supply and manufacture of high quality products to our customer. We are in permanent contact with suppliers in order to see how much the delivery of the products costs from countries like Russia, Italy, French, China and Japan to our location in Madrid, Spain. At the same time we will be in touch with Spanish suppliers of International products who are able to provide us a great portfolio of our products.

Regarding Human Resources, the processes of recruiting our staff will be described more in detail in our HR Plan. Training and customer service are linked, because we want to provide the best possible service for our clients because currently there is a big lack of customer service in this sector.

In that sense, GT is going to hire a specialized training company, but with our supervision. The same applies to promotion, advertising, public relations, etc. Those activities will be detailed in the Marketing Plan.

The processes regarding relationship with local authorities, we need to have several sanitary certificates, and also a license from the Ministry of Agriculture. This means GT is going to follow the legal steps that are mandatory to open a branch and start dealing with food and manufacturing food products for instance LEY 27/2006 and other legal food & health regulations.

And finally, the administrative process takes place in Madrid following the legal procedures and paying special attention to different trade agreements between countries and Spanish legislation.

VIII.VII Human Resources

Our personnel will consist of a fixed international chef, a part time chef when the chef service is requested and a shop assistant, their functions will be:

The responsibilities of an international chef include: training and managing kitchen personnel and supervising/coordinating all related culinary activities; estimating food consumption and requisitioning food; selecting and developing recipes; standardizing production recipes to ensure consistent quality; establishing presentation technique and quality standards; planning and pricing menus; ensuring proper equipment operation / maintenance; and ensuring proper safety and sanitation in kitchen. The International chef also actively participates in testing food.
The part time chef will be outsourced when the customer requires it and their responsibilities include: preparing and cooking meals for the customer for special events such as dinner parties and celebrations, food consumption and requisitioning food; selecting and developing recipes; standardizing production recipes to ensure consistent quality; establishing presentation technique and quality standards. A personal chef must also be on top of meeting other high standards of health and hygiene such as storing food properly.

We have to take into account that during peak hours we will also have available a shop assistant switching from the shop to the take away service so her or his function will be: dealing with the customer, giving and packing the food and helping to the chef in the basic and cleaning tasks.

VIII.VIII Business Processes

The graphic representation of those processes is detailed bellow:

VIII.IX Quality Control Plans

GT doesn’t need to install any quality control processes because all products come from different Denominations of Origin from all over the world, so each Denomination of Origin controls and ensures the quality of the merchandise. Nevertheless, the meals prepared inside GT will be analyzed thoroughly before and during preparation and will have to pass through taste control before offering them in the shop.

1. Maintenance and Services:

GT’s main focus is providing high quality customer service in order to gain customer loyalty. In order to achieve this, as well as, market recognition, GT will select and train employees in order for them to be specialized and have in-depth knowledge of the products and be able to orient employees on their selection of products and recipes.

This will be assured by creating clear policies on recruitment and selection of all employees. Also, constant training is critical; this will provide the employee skills on customer services, as well as, workshops that update customers on new products and eating habits. The customer’s culture will be taken into account in order to customize training accordingly.

Our core activities besides customer service are Operations, Human Resources, Procurement and Logistics. Since our products have individual expiration dates, it is important for a quality control system to be implemented. As well as constantly studying the company’s operations in order improve the reception of products and maximum customer satisfaction.
IX. Marketing plan

IX.I Competitors

The Gourmet market is growing fast. It is characterized by the increase of accessibility to the products, the variety of the delicatessen presented, and the diversification of the channels of distribution.

In Madrid there are approximately 30 gourmet shops. The Gourmet market is represented in mainly by small o medium businesses. But there are some volume players that have net of the gourmet shops and that provide additional services: cafeterias, delivery, take away. The 3 volume players are: Mallorca, Club de Gourmet, and Sánchez Romero. Their business is described below.

The graph below shows each shop’s capacity measured by the number of shops / cafes / establishments each company has.

![Graph showing number of shops and restaurants/cafes for each company.](image)

Source: information given by the companies.

Although there are other players in the gourmet market, only a few can be highlighted that have gained brand name and recognition. The leaders of the market in this sense should be named: Club de Gourmet, Mallorca, Sánchez Romero, Mercado de San Miguel.

Some years ago you could find the gourmet products just in the specialized shops. Talking about the specialized gourmet shops in general, they now meet competition not only among each other but also from the part of the supermarkets that organize special zones inside their facilities to sell delicatessen. This global tendency is evident in Spain as well. An example is El Club de Gourmet – specialized gourmet shop in El Corte Inglés.

Another channel of distribution that is growing with time is the Internet. Nowadays, more and more businesses think of online shops as a great opportunity.
The graph below shows a representation of this industry in Spain. Gourmet products in Spain are distributed in general in 4 channels: 42% of the sales correspond to the supermarkets, 31% to gourmet shops, 18% to hypermarkets, 9% to other channels (including online shops).

Supermarkets and Hypermarkets

Selling gourmet products in a supermarket or hypermarket has its advantages and disadvantages. One of the “pros” for a client in that sense is that there is no need to go to any special place to buy delicatessen products as they are offered in the supermarket. So for clients it is much easier and faster to buy these products while purchasing the usual products. One of the main “cons” for a client that supermarkets offer is the impersonality of shopping there, there isn’t a special atmosphere that a client should receive when buying expensive products. As GT is not only about purchasing the delicatessen but also about receiving a valuable experience, we don’t consider any supermarket or hypermarket that doesn’t provide their clients with the experience factor. Some of our competitors among supermarkets are:
- El Corte Inglés with El Club de Gourmet;
- Sánchez Romero, supermarket specialized on the products of high quality, delicatessen.

The first supermarket we find is, Sánchez Romero, which was opened in 1954 by Eduardo Sánchez Romero. The values of the company are: quality, exclusivity, and personal approach. There are currently 9 shops in different parts of Madrid, always located in the most expensive districts such as: Castellana, Sor Ángela De La Cruz, Puerta De Hierro, Arturo Soria Plaza, Moraleja, Majadahonda, Corazón De María, Zielo Shopping, Mirasierra.

Product and Services:
✓ High quality supermarket.
✓ Delivery service.
✓ Sánchez Romero Cafeterias.

According to the information published by the company to the media, business is doing well. The annual reports are available from the 2000-2003 and 2009. It is reported the increase of sells in the last 7 years in 45%. The table shows the sales of Sánchez Romero.

Source: Annual reports of the company.

El Corte Inglés proposed its clients the Gourmet Products through the supermarket and a specialized shop – el Gourmet Club. El Gourmet Club is located in different points around the city, in the center and surroundings. Shops are located:

✓ 866 C. C. Arroyosur. C/ De La Primavera, 1 Leganés – Madrid.
✓ 003 Goya, 76 Madrid – Madrid.
✓ 010 Princesa, 41 Madrid – Madrid.
✓ 091 C. C. Méndez Alvaro.Retama, 8 Madrid - Madrid
✓ 901 Plaza De Callao, 2 Madrid – Madrid.
✓ 906 Serrano, 52. Madrid – Madrid.
El Cub de Gourmet Shops are part of the big structure of the supermarket El Corte Inglés. In the annual report the shops do not appear as the separate part of the business. Using the information provided by a company we can follow the general tendency of the market of premium products.

Source: Company’s Annual Reports.

Gourmet shops

Other competitors we should highlight are the other two shops that have strongest market position: Mallorca and Mercado de San Miguel.

Mallorca is a family company that has been operating for more than 72 years in the market. It’s still a family company. It specializes in sweet and salty confection products. Mallorca is trying to follow the tendencies by creating new products. For instance, they were pioneers offering tasting seasons of their product in the 1960s. They were also the first to introduce confectioner's salty products and to propose sweets low in calories. Innovation is one of the main success factors of the company, plus constant variation of...
products offered. They possess 10 shops located in following zones: Salamanca, Chamberi, Chamartin, Tetuán, Hortaleza, and Ciudad Lineal.

Products and service:

- High quality sweet and salty products.
- Cafeteria.
- Catering.
- Take away meals.
- Delivery: costs 5.85 euros. Customers have to ask 24 hours in advance by telephone or 48 hours online.

Mercado San Miguel is one of the oldest markets in Madrid with the huge history that starts from 1916. It is located in the center of the city. It’s run by the Society El Gastrónomo de San Miguel. It was reformed in 2009 and since then it specializes in offering the products of high quality including delicatessen, season products mostly from Spain and some European countries. An area of 1200 squared meters is divided into 33 different shops. Each of them has its own range of products and personal style. The clients can make shop for products, as well as, test all the products in the bars.

Products and services:

- High quality products.
- Café / Bar.

Our other competitors are small and medium businesses with either physical or online shops. We will analyze these businesses comparing them with the GT in the most important criteria: the range of the products, the country-origin of the products, and the additional services. It’s important to mention that most of these businesses focus on one specific product, or gastronomy at most.

The analysis of the origin of the products shows that the shops represent lower number of countries. The national delicatessens are broadly offered. Most international products are imported from European countries, rather than from Latin America and North America. The last in the list are Asian and African countries. For instance only 16% of the shops offer products from Asia, Africa, Russia. To compare with Gastronomy Temple, we intend to import high quality food products from 5 continents.
Another main differentiation factor is the additional services offered by the shops. Our research shows that:

- A small number of shops include a restaurant or cafe. For example, the ones at Mallorca and Maison Blanch.
- 23% offers delivery services.
- 6% special cooking classes.

**The Main Competition**

Out of all the players that operate in the market, we can highlight our main competitors according to compliance with the majority of the following criteria:
- Offers wide range of gourmet products.
- Offers additional services: delivery, chef and etc.
- Includes restaurant or café.
- Posses brand name.
- Proposes the atmosphere of exclusivity.
- Offers personal approach and high service.
- Suggest valuable experience.

Therefore our main competitors are: el Club de Gourmet, Sánchez Romero, Mallorca, Mercado de San Miguel. The following table shows our main competitors in more detail:

<table>
<thead>
<tr>
<th>Name</th>
<th>Turnover (sales)</th>

</table>

IX.II STP:

In order to properly develop our segmentation, targeting, and positioning we developed a survey in which we included the main points to be taken into account.

1. Segmentation & Targeting:

   GENERAL ANALYSIS:

   The first thing is to analyze the situation in Spain, then go further with the situation in Madrid.

   1. SPAIN: LIVING CONDITIONS 2010:

   In the first two graphs of the document attached (See Annex VI) we have analyzed Spanish living conditions in 2010.

   The conclusions are the follow in:

   ✓ Nowadays a 43% of the Spanish population is able to afford unpredictable expenditures.
   ✓ Other remarkable point is that a 40% of the Spanish population reach easily the end of the month and what is more interesting for us is that a 14% of those people haven’t got any difficulties.

   2. AVG ANNUAL EXPENDITURE / HOUSEHOLD & CCAA 2008

   In this graph (See Annex VIII) shows the comparison between Madrid and the rest of the CCAA. Madrid is the Spanish region with the highest consumption in goods and services, accounting for 37,862 €/household that means a 23.63% more than the Spanish average.
3. AVERAGE ANNUAL INCOME PER HOUSEHOLD (2008)

Madrid is a very interesting place to open our first shop due to different factors, such as, the average income per household which reaches a value of € 30,400 yearly, which means a 29.95% more than any other region in Spain (See Annex VIX).

As a conclusion, we can assure that even with the actual crisis, Spain is still having a good living conditions and more specifically Madrid.

MADRID

A segment is a sub-division of a market made up of people or organizations with a similar demand of a product and/or services based on qualities of those products such as price or function.

Segmentation and targeting process = population from Madrid $\rightarrow$ employed $\rightarrow$ population high-medium income population.

Having said that, our segmentation process will start from the total Spanish population, as our business will be set up in Madrid, we need to know the population that actually is from Madrid.

<table>
<thead>
<tr>
<th>TOTAL POPULATION</th>
<th>47,021,031</th>

Fuentes: Instituto Nacional de Estadística

Source: Active population survey first quarter, 2010.
Looking at the data above 3,415,500 people represents population that is either employed or actively seeking employment. All those people are the ones who really interest us and the ones we are going to focus on.

A 16% of these 3,415,500 are unemployed people; if we discounted it from the total we have 2,863,100 people who are the ones that interest us.

Our next step in our segmentation process is to find out our final target, it would be to determine how many individuals in this cluster have high-medium income. High medium income is defined from 25,000 € per year.

From the 2,863,100 that represents the 100% of the active employed population, a 47% of them have high-medium incomes, what it means is that if we discounted them from the 2,863,100, we reach a number of 1,357,109 people who really are our potential target customer.
IX. III Positioning:

Tastes that go beyond nurturing, to create a new dimension on what eating should be like. Giving the customer a feel of real international gastronomies, while receiving top service at a state-of-the-art facility.

IX.IV Product:

Our Business plan is the creation of a premium shop that adapts to the needs to the customers, stepping away from the traditional shopping stores to make the entire experience more enjoyable. Our plan is divided in two main categories: products and services.

✓ Our products: Wide range of high quality products imported from their country of origin.

✓ Services: Our services make shopping easier for our customers. Some of our services are:

➢ Advisors: Personnel specialized in our products, capable of assessing the customer on what they should buy and how to prepare delicious recipes with them.

➢ Chef: Bookable Chef with international vision and ability to create recipes and menus for clients, in the comfort of their home. He will go to the customer’s home and prepare the meal, when everything is done, he will pack up everything and leave everything spotless. This service will grant the customer more free time to get ready for entertaining and more time to spend with his / her guests.

➢ Website: Offers the customer the opportunity to purchase our products and services from anywhere in the world at any given time. Also, the recipe section has a list of recipes created by our chef where the customer can purchase the products from the ingredient list. After the purchase, the groceries will be delivered to any address in Madrid.

➢ Tasting Sessions: Every Sunday, GT will offer tasting sessions from a different part of the world based on creations done with our products to show the customers our selection and a taste of every product.

➢ Takeaway Meals: Light meals prepared for our busy working customer that can only take short lunch times. The customer can choose to take the lunch with them or have it in our facilities.
Cooking classes: GT is going to offer you every weekend cooking class from all over the world.

IX.V Placement:

GT is going to be located in one of the most important areas in Madrid. This area is very dynamic and frequented by tourists, locals and business people. Also this area is near to one of the most important business centers in Madrid such as Paseo de la Catellana y Paseo de Recoletos, this will be very important for us in order to boost our take away service.

At the same time it is very easy to access for our customer because there are 6 metro stops and one Renfe Cercanías stop in a 1km² area. Also the surrounding areas provide our customer car parking centers.

The space required for the storage and sales purpose is 400 m². The estimated cost for renting in this area is around 8,000 € per month.
As we saw before in our Operation Plan, GT is going to be located in one of the most prestigious areas in Madrid called “Barrio de Salamanca”.

Here we have a picture of the area where we can find:

☑ 7 metro stops in more or less 1Km2.
☑ 1 Renfe Cercanías stop.
☑ An important number of buses, some of most relevant are: 5, 14, 27, 37, 45, 53 and 150.

Its geographical distribution is very well defined between:

☑ West: Paseo de Recoletos and paseo de la Castellana.
☑ South: Calle de Alcalá and Calle de O’Donnell.
☑ East: Avenida de la Paz and M30.
☑ North: Calle de Maria de Molina and Avenida de América.

Also, “Barrio de Salamanca” is divided into six different neighbourhoods, however GT is going to be located in the most important ones, they are the follow in:

☑ Barrio de Recoletos: Located between some of the most exclusives streets in Madrid such as Calle del Príncipe de Vergara, Calle de Don Ramón de la Cruz, Paseo de la Castellana, Paseo de Recoletos, Calle de Alcalá and Calle de O’Donnell.
Barrio de Goya: Located between, calle O'Donnell, Doctor Esquerdo, Don Ramón de la Cruz, Príncipe de Vergara y Menéndez Pelayo.

**Barrio de Salamanca** is well-known for being one of the wealthiest and most expensive areas in Madrid, with a high living cost and one of the highest real estate prices in the city. One of its main streets is Serrano, which is listed as the third most expensive street in Spain according with Cushman & Wakefield.

A significant number of diplomatic missions are set in Barrio de Salamanca, such as the Swiss Embassy at Nuñez de Balboa with Goya Street, the American Embassy at 74 Serrano Street, Canadian Embassy in Nuñez de Balboa Street and the Italian Embassy in Juan Bravo Street.

Barrio de Salamanca has about 150,775 habitants in 58,742 houses, with a density of 279 people per hectare. It gives us an idea about the live of this important neighborhood.

Moreover, this area is also the wealthiest district in Madrid city with a per capita income of €22,255. In absolute terms, Barrio de Salamanca is the area or district with the highest economic activity in Madrid with a number of €10.700 millions per year.

Another important point about Barrio de Salamanca is the high number of attractions not only for citizens of Madrid, but also for tourists. In this area we can find some of the most important buildings of the city such as:

- Prado Museum
- Thyssen – Bornemisza Museum
- Reina Sofía Museum
- Arqueology Museum
- National Library
- Cibeles Square
- Puerta de Alcalá
- Retiro Park
- Gijon’s coffee
- Linares’ Palace
- Spanish Theatre
- Lope de Vega’s house
- Ateneo’s building
- Congress of Deputies
- Church of San Jeronimo
- Royal Botanic Gardens

Also an important number of fairs are quoted there. For instance, “Old and Occasion Book Fair”; “Autumn Old Book Fair” or “Craft Fair” or “on 27th of March every year here we celebrate as well World Theatre Day”. This kind of event brings a lot of people from different neighborhoods in Madrid as well as an important number
of tourism. It will make “Gastronomy Temple” very visited and quickly well known between Madrid citizens.

Also in this area you will find some of the more important and exclusive brands such as:

- ADOLFO DOMÍNGUEZ.- Serrano, 18
- ÁGATHA RUIZ DE LA PRADA.- Serrano, 27.
- AMAYA ARZUAGA.- Lagasca, 50.
- ARMANI.- José Ortega y Gasset, 16
- CHANEL.- José Ortega y Gasset, 14.
- CHRISTIAN DIOR.- José Ortega y Gasset, 6.
- DAVIDELFÍN.- Jorge Juan,
- Dior.- José Ortega y Gasset. Metro
- Dior Homme.- Raimundo Fernández Villaverde
- DOLCE & GABBANA.- José Ortega y Gasset, 14
- ELENA BENARROCH.- Lagasca, 88.
- ERMENEGILDO ZEGNA.- Serrano, 21.
- ESCADA.- José Ortega y Gasset, 21
- ETRO.- Jorge Juan, 9.
- FELIPE VARELA.- José Ortega y Gasset, 30.
- HERMÉS.- José Ortega y Gasset, 12.
- HUGO BOSS.- José Ortega y Gasset, 22.
- JAVIER LARRAINZAR.- Castelló, 16.
- JESÚS DEL POZO.- Almirante, 9.
- KENZO.- José Ortega y Gasset, 15.
- LOUIS VUITON.- Ortega y Gasset 17.
- LOEWE.- Ortega y Gasset, 26 and 34.
- MAX MARA.- Serrano, 38.
- PEDRO DEL HIERRO.- Serrano, 24.
- LA PERLA.- Serrano, 28.
- PRADA.- Goya, 4.
- PURIFICACIÓN GARCÍA.- Avda. del General Perón, 40.
- ROBERTO VERINO.- Serrano, 33.
- VALENTINO.- José Ortega y Gasset, 16.
- VICTORIO Y LUCCHINO.- Lagasca, 75.
- YVES SAINT LAURENT.- Serrano, 34.
Soon GT will be part of this selected club of stores located in this area. Also, our Website will be user-friendly, making it easy for our customer to find everything they want and having it delivery.

IX.VI Pricing:

Gastronomy Temple offers a wide range of international and high quality products. Difference services are offered as well. In our pricing strategy promotions are very important, as we are a new business and at the beginning everybody needs to know and talk about us. The only way to make it possible is through Marketing campaigns and promotions. On the other hand, we cannot forget that we are a gourmet shop with high quality products and we can’t sacrifice our prices, so, at first, we are not be able to do aggressive promotions.

IX.VII Services:

✓ Chef:

This service offers you a personal chef at your home, for yours business, family and friends or other celebrations, or simply to enjoy with the different gastronomies that GT offers you. Our price range is between 60-80 € per person, varies depending on the menu.

✓ Cooking classes:

GT is going to offer you every weekend a cooking class from one part of the world with the presence and help of our international experts. Our main objective is for the customer to enjoy cooking, while learning about new receipt and the tricks of the kitchen. At the end of the session the group can taste and enjoy the meals cooked.

- Monthly course: General cooking, one evening per week for a month. Minim 6 people and maxim 10 people. Price 120 € per person.

- Daily course: (Example)
  - Japanese gastronomy: The main objective of the class is to learn how to make Sushi in a didactic way, so at the end of the course you can elaborate different dishes easily and with an excellent result.

    ▶ Duration: two days, three hours a day.

    ▶ Syllabus: Preparation of rice, Niguiris, Maki, California Rolls, Special rolls, Hot rolls, Sashimi, Tempura, Gyosas.

    ▶ Lunch and drinks at the end of the class.
• Mexican gastronomy: The Mexican gastronomy is characteristic for its huge variety of courses and receipts, different and sophisticate flavors.
  
  ▶ Price: 120 € per person.
  
  ▶ Duration: one day, 4 hours.
  
  ▶ Price: 70 € per person.
  
  ▶ Lunch at the end of the class with drinks.
  
  ▶ Syllabus:
    - Salsas Básicas Mexicanas: Guacamole y Pico de Gallo con sus Nachos.
    - Quesadillas a la plancha con Huitlacoche.
    - Fajitas del Norte.
    - Pollo con Mole.
    - Alambre de ternera.
    - Cochinita pibil.
    - México y el Tequila.
    - Preparación de Margarita.

• Thai gastronomy: The Thai gastronomy is a mix of five main flavors: bitter, sweet, spicy, sour and salty. We want that you learn to match these flavors in gorgeous dishes.
  
  ▶ Duration: two days, three hours daily.
  
  ▶ Price: 120 € per person
  
  ▶ Lunch at the end of the course with drinks.
  
  ▶ Syllabus:
    - Introductions to the Thai’s flavors and aromas.
    - Coconut prawns.
-Yam pola Mai (Aromatic salad with fruits)
-Sauces to accompany dishes.
-Bangkok Rolls.
-Rice in Thailand.
-Krong Paad Thai (fried mix rice)
-Satay of veal.
-Chicken curry.

✓ Wine Tasting:

Introduction to wine tasting: The main objective of this course is to learn the tasting’s techniques and its different phases: visual, olfactory and gustatory. How the wine is made, its types, etc. This course is oriented to all type of public.

✓ Syllabus:

✓ Duration: eight hours (Saturday and Sunday 17:00 to 21:00)
✓ Price: 95 € per person.

✓ Aging wines course:

✓ Syllabus:
- Theory of the aromas. Test of negative aromas. Tasting of four wines with defects. Tasting of a high aging red wine.
- Vineyard and its surrounds. History and variety most important. Tasting of four white wines with different aging times.
-The weather and the land. Influence in the flavors and aromas.
  Tasting of four red wines with different aging times.

-Production of red wines.

-Barrels and bottles. Influence in the development of aging.

-Tasting of four red wines with high expression and different aging times.

- Duration: eight hours (Saturday and Sunday, 17:30 to 21:30)

- Price: 100 € per person.

✓ Take away:

  In our take away section you can find a nice variety of meals, drinks and bakery such as sandwiches, salads, pies, cakes, juices, and so on, with a variety of prices.

✓ Price Promotions:

  Gastronomy Temple offers club cards for all its customers. Normal, Silver and Golden cards are available depending on the numbers of accumulated points. In every shopping with a value higher than 30 € you can get points that later you accumulate and exchange for Gastronomy Temple’s products and services.

IX.VIII Promotion and Communications Plan:

The marketing plan is divided in two main parts: Pre-launch and Launch & Yearly Communication Activities. The first part is focused on the first opening of the Gastronomic Temple in Spain. The second part is describing the main tools that can be used during the first years of its performance. It should be noticed that the same plan of marketing activities could be followed in any other country although the changes are permitted bearing in mind the cultural differences. The communication activities are established in order to gain the main aims which are to create recognizable brand of Gastronomical Temple as a fashionable, elegant shop and cafe that provides unique gastronomic experience; to attract, to keep and increase the number of clients with specific profile; to maintain exclusive environment inside the shop and around its name, products and services.

Below you can see the list of the promotional activities we are eager to undertake the first years. The explanation of each follows below.

IX.VIII.I Pre-launch and Launch:
The marketing activities that support the launch of the shop are of high importance for a successful start of our business. Their main aims are: make the general public aware of our shop and its services, to communicate them our unique concept, to attract and to keep clients.

The marketing activities start long before the opening of the shop and they’re all concentrated to support the Opening day and the Social Event that should be organized to celebrate it. The preferences are given to Public Relations in order to establish communication with the media, potential clients and public people.

The PR managers select the media among with the journals, radios, Internet, TV and newspapers that have the same target audience that we have. That can be man, woman, life style, business or specialized Media that publicize information over the elite, high quality products. The press releases are sent and the relations are established in order to initiate publications about the opening. The main media is given an accreditation to our social event to which they are attracted by the amount of celebrities that will come or according to achieved agreements. We also use our website and Internet to announce the opening.

Our net initial potential clients can be generated (authorities, top management of the nearby companies, countries’ consuls and etc.). Networking starts to play its role in order to announce our potential clients, the opening event and to invite them to come to our social event.

It’s very important to notice and account for the arrival of the public people (from cultural, sport, business and political areas). The public should have respectable reputation; no scandalized celebrities should be invited. The contact should be direct or through their agents. Some will be attracted by the presence of the Media and some by satisfying their needs (giving presents, free services).

The opening day should be very special. The red carpet leads to the doors of the shop and a lot of paparazzi (the animation) and the crowd at the entrance. That will also inform the passers-by about the new shop. The opening event has to become one of the most interesting events of social life that month. Among the guests are public people, media, and potential clients. During the social event the guests will get know the concept and taste the product. All the stakeholders have to get the best impression possible of the new shop and services.

The successful use of PR and networking will generate amount of publication in media before and after opening: news about shop and services, good critics, social reportage with the photos of public people, and also will produce high awareness about the shop among the public.
IX.VIII.II Public Relations Activities:

a. Website: It’s necessary to develop a website that besides from commercial functions responds to marketing necessities. The website should communicate visually and textually the values of our brand and promote the services and products. It will be actively and regularly filled with new product-related information of high interest for our target, including the recipes, videos of cooking classes (based on our products) and exchange of experience. The long-term objective is to create brand-enhanced web community as leverage for relationship-marketing communication. http://www.gastronomytemple.com/.

b. Internet: We should use Internet as one of the main tools to promote our products and services. We should distribute information in the web pages of guides about shops and restaurants, medias, pages with receipts, gourmet clubs, blogs and social websites. Our objective is to create our brand and make it shine.

- Networks: Facebook, Twitter, Blogs, Vimeo, You Tube, Flickr, Live, Mediateca, Savia, Ustream. TV, Slideshare, Linkedin.

c. Publications with media: Through regular press releases and having good relationships with the journalists, we initiate publications in media and promote the brand through the products and services, as well as, through our activities (special events, fairs, tastings, promotions and etc).

- Journal for men: “Men´s Health”, “GQ”, “Gentleman”.

Global MBA          Gastronomy Temple
✓ Journal life-style: “Revolution”, “Golf Digest”.

IX.VIII.III Advertising:

a. Advertising in the Press: Media for advertising should be carefully chosen according to its reputation and the audience targeted – their profile should be close to one of our clients. That can be men, women, lifestyle, business or specialized press. The following format should be followed in the journals: right sight, full-page ads or 1/3 page ads but putted on the two following pages. Any format of ads can be used in the newspapers but should be put in prioritize position. As direct advertising is to expensive for us we are doing to use it in the future years.

✓ Journal for man: “Men’s Health”, “GQ”, “Gentleman”.

✓ Journal life-style: “Revolution”, “Golf Digest”.

b. Internet: The ads can be putted in guides about shops and restaurants, pages about cooking or vine clubs, web pages of the media and also web of others companies that are visited a lot by our target clients. In search engines like Google and Yahoo we will pay in order to place our ad at the top lines of the search results. We should reach good index and high position in the searching pages.

✓ Cooking and clubs: hogarutil.com, recetasdecocina.es, brillante.es, cocina.facilisimo.com, publispain.com, directoalpaladar.com, vinogusto.com, sibaritissimo.com
c. Outside Ads: Outsides Ads (as billboards) can be used as an additional channel of communication especially during high season. The Ads should be concentrated in the district where the shop is located (keeping in mind that it’s a medium-high income area) and preferably in places before shop in direction to the shop. We expect that we can afford this sort of ads in the future.

d. Buses: For the first year we choose to put the ads on the sides of the buses that have a number of advantages for us: as the buses circulate we get a huge coverage on the city; the price of the ad is acceptable to keep ads almost all year around. We will choose the buses that have their bus stop close to our shop.

IX.VIII.IV Events:

- Proper special events: Several times a year we will organize in our shop a special event with a different concept every time. Media, celebrities, V.I.P. clients will be invited. After the event we expect to have over 20 publications in the press media and 30 in the Internet.

  The concept for the first event would be the following: 4 celebrities will prepare special cocktail for our guests. In order to lower the cost of the event we are going to look for sponsors.

- Sponsorship: We will try to sponsor cultural and social events, fairs, ceremonies that are visited by celebrities and public that fits our profile in order to find new clients, this will associate our brand with high-class life. We would prefer to participate in others events by providing products or services rather than cash.

- Fair: Fairs that can help gain new clients, to establish relations with partners. We are going to participate in fairs starting the first year when we will know which relationships we need to establish or to reestablish in order to grow or to improve our business. For example, “Salón Internacional CLUB DE GOURMETS 2012 Madrid: Feria Alimentos y Bebidas de Alta Gama”, “Feria Restauración Moderna 2012 Madrid: Salón de la Alimentación Urbana”, “Feria Madrid Fusión 2012: Cumbre de Gastronomía Madrid fusión 2012”.
IX.VIII.V Promotions:

- Distribution of brochures: Regularly update our brochure that contains information on our products, services, and relevant information about our activities: reportages with photos of stars from our social events, cooking traditions, recipes and etc. The brochure will be distributed free in our shops, clients’ networks and partners (see below “Cross Promotions”).

In the future when the Marketing budget is big enough, we will take into account high seasons to do special promotions in the catalog to be distributed in addition to our regular press. The chosen media should comply with the same requirements as the ones where we put our ads. For example, in addition to “El Pais”, it could be “El Mundo”, “Telva”.

- Cross Promotions with Partners: We will choose partners that have the same client profile as ours, that are not our competitors and work in other business areas. For example, in gyms, spas, decorations, clothes, etc. Of course coming to an agreement to define win-win situation for our cross promotion. For example, distribution of our catalog through their chain or giving privileges to their clients in our shop and special offers to our customers in their chain. That will help us to obtain new clients through the partners and to increase satisfaction of current clients.

- Tastings: Tasting sessions will be organized on regular base. They will promote the product we are interested to increase sells. At the same time creating a new experience to our customers. In order to have access for this type of promotions we will look for sponsors (brand representatives).

- Privilege Programs: We are going to participate in the privilege programs of others companies (like American Express) or in company programs. This will enable us to reach new clients and without the requirement of huge price of participation. The price of the participation will be discounts on our products. For example, American Express, coupons: groupalia.com, groupon.es.

- Delivery companies: Establish a contract with a food delivery company that has a catalogue on the best shops and restaurants in order to get new clients. For example, Baguise.

IX.VIII.VI Yearly Communication Activities:

- **Public Relations:** PR covers the development of relations with employees (internal PR), actual and potential clients (client networking), partners and others stakeholders.
-**Client Network:** Client Networking generally meets two strategic objectives: to acquire new clients and to maintain the actual clients. The CRM system is developed (see the chapter “Operation Plan”, ERP). To achieve the first one the network will find and establish relations with potential clients (authorities, top management of the nearby companies, countries’ consulates and etc.) or decision makers (like secretaries). Networking should gain customer satisfaction in order to maintain the client: the V.I.P. client receives presents for their birthday, has access to our social events, receives customized offers and others privileges. We are going to have the Gold & Silver Card that entitles the client with the advantages (discount, presents, invitation to the event and etc.)

-**Network with public people:** The agreement should be made to make it possible for the public to come as the guests to our events. We will concentrate on the celebrities that are known but not super stars, those that have the aim of promoting themselves. We will attract their participation on our events by promising further publications about the event with their photos in the media.

-**Relations with media:** By building our relationships with the media we should gain the position of qualified news-provider and experts in the high quality food. The PR managers select the media among the journals, radios, Internet, TV and newspapers that targeted the audience similar to our profile. That can be man, woman, lifestyle, business o specialized Media that publicized information on the elite, high quality products. We are going to establish friendly relationships with the media; we will invite them to participate in our events, attracting them with our original concept of the event and by the celebrities. Also, we will send regular updates to the press to keep them informed about our company.

-**Internal PR:** Internal PR will make sure that all the employees understand and share our values: It will create a trustful climate and will help the cohesion.

-**Conclusions:**

As direct advertising is very expensive, we decided to put our on buses: with this we consider to gain a huge coverage. We are going to concentrate on PR, Networking, Events and Promotions. As we posses good space (our restaurant) we will be able to attract a lot of companies that will organize their events with us. Also we are looking for projects that don’t require high investments but through which we can reach new clients.

But more that this, we will focus on providing high quality products and excellent services to get our clients talking about us and recommend us to others.

| **CUSTOMER LOYALTY PROGRAMS**             | 14,720 €|

-Experience:

Gastronomy Temple is not just about giving the customer access to international products, it’s about lowering barriers between countries and providing a little bit of culture from all corners of the world, opening doors to new flavors.

Experience is going to be one of the key points of “Gastronomy Temple”. Nowadays the market and specially food markets are very weak on this factor; most food stores don’t develop the experience. What we mean is that stores are not concerned about decoration, distribution; providing a good service, cleanness, nice packaging (presentation), professionalism, details that we have found the client really cares about.

In Spain the trend is goes to massive food stores full of aisles, and plenty of products on the shelves, but with a big lack of client’s experience and nice and pleasant atmosphere. People go to these stores to make weekly or monthly food shopping but are never happy about it; they just go because they don’t have any other choice. Here is where we want to innovate and differentiate ourselves from our competitors. We want to become an exclusive club and we want for our customer to join with us.
At GT we have identified how important it is to create a nice atmosphere for our clients and how to treat them in a very professional and customized way. We want to improve the shopping experience. In order to do so, we have developed a plan with a series of activities and with a standard operating procedure mainly focus on our clients.

- **Style and decoration:** The style is going to be modern according with the area where it’s located. We want to break with the current and traditional food stores styles. In GT we are going to implant a minimalist yet colorful style. It will provide us with easy identification and recognition. All the materials we use must have the highest quality (marble flooring, glazed walls, wallpaper and paints, coatings, wood, etc).

  The furniture will be in line with local decorative line. The furnishings in the Takeaway Room have to follow the same design as the Kitchen, the Retail Shop, and Website. It is a key differentiator, the fact that all the elements that make up international reference designs are the same (Le Corbusier, Mies Van der Rohe, Jacobsen, etc.).

- **Customization:** Whenever it’s possible we want to provide our customer with an amazing and specified treat. Following the scoop that every customer is different and important for us, we will provide them with an individual and personalized treat. In order to develop the “customization” we need to know as much as possible about our clients. The quality of the service we want to provide gives us this knowledge. Each client will be offered the possibility to be a “Privileged Client” implying giving his/her address and e-mail to receive customized gifts in special dates or access to special events. With the data collected we will be able to improve our segmentation but also to increase the loyalty of our clients, which is fundamental in a competitive market as is the food retail.

- **Product Package:** Today we are living in an extremely competitive retail market, and unfortunately we have only one chance to make a first impression. The first thing that many of our customers will see from GT will be our product packaging. We want to make this first impression a good and memorable one, with a custom design that will capture our customer attention immediately.

  Today more than ever, package design plays a major role in the success of our product sales. The right look, feel and design of our product packaging have to convey quality, value and success. In GT we know it, and by this we are going to take care about the
presentation of our products and services. Every time we deliver something it is going to be for us a special job.

Regarding shopping bags, we are not going to distribute the ordinary carrier bags that someone can find at any food store. Following our line, Gastronomy Temple is different. We will provide our customer with a nice interesting shopping bag. It also will be a good marketing tool, because our customer will carry our bags all over Madrid giving us free advertisement.

✓ Tasting sessions: To keep improving the “apparently lost shopping experience” in Gastronomy Temple we are going to promote and develop tasting sessions. It will give our customer a nice and different atmosphere diverging from the traditional food stores. For instance each month, we will pick a gastronomy or theme typical from a specific region or country and we will offer to our customer different products from there.

This event aims to immerse the client in a pleasant atmosphere, tasting Spanish or Japanese or Chinese products for free and having the advice of a specialist there to educate them. He / she could give a very short conference at the beginning then talking to the participants when they taste the products. Some “Guess Games” can be proposed to add conviviality to the event. All the information about the products (most and less appreciated) and the event has to be properly documented to be used for future events in order to adapt it to our customer preferences (always customer focused).

✓ Music and perfume: Also in order to be different Gastronomy Temple will play nice relaxing music. It will provide a soothing and pleasant atmosphere while our customers are shopping. Also, we are going to perfume the entrance of our shop with a good and exclusive fragrance. It will make the entrance and the nearest areas outside very fresh and smelling according with our glam guidelines.
X. Human Resources

X.I Managerial Team:

The executives or managerial team form part of the project because they are its partners. All of them have a Bachelor’s and MBA degrees, with international experience, different backgrounds, enthusiastic, dynamic and proactive. They are not going to have a monthly salary, they will have benefits when the business is established and has enough earnings. (See Annex.. for CVs)

Below is our Organizational Chart followed by detailed job descriptions for each of the different positions in our establishment.

From the next page forward, there is a detailed description of all the positions to be filled in Gastronomy Temple. Starting with job Title and where it’s placed on the organizational chart, the main objective, responsibilities and duties, academic, as well as, professional and personal requirements.

</tbody>
</table>
X.II Payment Policy

Every year fixed salaries will increase based on performance, assuming achievements on behalf of the employee; he/she will receive an increase of 3% yearly. We are located in Spain, according to labor law in Spain, all our employees residing in Madrid will have 30 days paid vacations per year, plus 3 paid days for personal matters.

The Bonus is going to be divided into two parts:

✔ Personal Performance (10%): Employee performance will be evaluated at the end of every year to see improvements per quarter, based on: Number of service sold, percentage of customer retention, percentage of customers acquired, customer satisfaction Surveys. The evaluation must show improvements.

✔ Store Results (10%): Gastronomy Temple is a new business; consequently during the first year the company will not have enough revenues to give the 10% bonus based on store results. Due to that, the second year the company will give its employees their bonus. The budget will vary according to annual turnover. These vary depending on the job position:

- **Store Manager:**

<table>
<thead>
<tr>
<th>Budget %</th>
<th>Bonus %</th>
</tr>
</thead>
<tbody>
<tr>
<td>100%</td>
<td>0%</td>
</tr>
<tr>
<td>120%</td>

**X.IV Recruitment Process:**

The Recruitment & Selection is the first step towards creating the competitive strength and the strategic advantage for our organization. The Recruitment Process involves a systematic procedure from sourcing the candidates to arranging and conducting the interviews. At the beginning, we are going to deal with the process of recruitment in order to save money and be sure of hire the right employees. Also, as we will be very involved in the business, we will be helping our customers around the store whenever possible, this way, we will get a good understanding of the kind of employees that we will need in the future in order to open new...
stores and expand our brand. With this level of involvement in the business also we will get a wider knowledge of all the parts of the business and the skills needed to provide an excellent customer service.

Moreover, it will show to the new employees we hire that we are highly committed and involved in our business.

✓ Objective:

1) To streamline the Recruitment Process.
2) To ensure that we hire the right people at right time for the right position.
3) To create a favorable employer brand in order to attract the best talent in the market.

✓ Scope: The process will cover all vacant positions of Gastronomy Temple. The hiring process will start at least three months before Gastronomy Temple opens its doors. It will be executed by our HR Department by seeking in an optimum way for the vacant position, professional requirements, terms of employment and other aspects of the job. Based on mentioned critical attributes, HR would be responsible of:

1) Preparing the job descriptions and specifications.
2) Advertising the vacancy.
3) Identifying the potential employee with required characteristics.
4) Arranging the interviews with the selected candidates.
5) Concluding the interviews and taking decisions.

✓ Recruitment Resources: HR will advertise and search the potential candidates from the following sources:

1) E-Recruitment networks. For example, Linkedin.
2) Vacancy advertisements in newspapers.
3) Personal networks.

✓ Recruitment cycle time: In order to be dynamic and effective in the Recruitment Process, HR will follow a specific deadline of a maximum of two and a half months to hire a new employee in a new shop and a maximum of one month to hire a specific employee to cover a vacant position in a shop that is already running (from the day he/she has received an Enquiry).

The specific schedule of this process is detailed below:

X.VI Training:

One of Gastronomy Temple’s aims is to have the best-trained employees. For that reason, we are going to make a big effort in this field, in order to retain our employees in the company. All the training will be related to each employee’s strengths and performance in their daily tasks. As one of our key points in Gastronomy Temple is providing an excellent customer service to our clients, our employees have to be very professional in every single aspect of their jobs, to achieve that, in Gastronomy Temple we are going to train our employees in a proper way.

The main aim of the training process is to provide our employees a very good knowledge and understanding of their job and extend it to our customer to fulfill their expectations and enquires. Everyone in our organization must show commitment and motivation; therefore everybody is in charge of personal development.

✓ Conduct Employee Orientation Program
✓ Coordinate with external Consultants on employees’ training needs and arrange training schedules for employees in the future years.
✓ Evaluate the effectiveness of the respective training programs by obtaining feedback from employees.
✓ Make sure employees have updates licenses on food licenses.

X.VII Motivation:

As a small and new company, our main motivation is to provide an excellent customer service to our client and at the same time become noticeable in the retail food market.

We are looking toward the future to expand ourselves and become international. We know we have a difficult and hard way to go over, but in Gastronomy Temple we are sure that with our employees help we are going to achieve it.

To motivate our employees, Gastronomy Temple has elaborated guidelines to follow:

1. Recognition/Attention: Gastronomy Temple recognizes a job well done; our Executive Board is always paying attention to the details that make an employee special. In Gastronomy Temple we know that recognition means appreciation for an achievement.

2. One-on-One Coaching: Coaching is employee development. We know it costs time and money but at GT we do it because we care.
In Gastronomy Temple whenever an employee deserves a positive feedback, we make sure to do it in "public." It will act as a natural stimulant for others who are close enough to see or hear what's taking place.

3. Training: Training sessions will continually enhance the performance of your people and the productivity of your business. Gastronomy Temple knows it’s critical, we have to develop and improve our employees and by doing so, we will improve as a company too. It will motivate our employees because they will feel important inside the organization.

4. Career Path: Gastronomy Temple employees need to know what is potentially ahead for them, what opportunities they have for growth. We know how important it is for our employees and by this we will always consider internal personnel for promotion first, to grow inside the organization whenever a new shop is open or there is a vacancy in the organization. Our employees will always have preference to any vacant position in the organization taking into account their skills and capacities.

If we are able to do this we are sending a very positive message to everyone that there are indeed further career opportunities within your organization.

5. Job Titles: In Gastronomy Temple we are aware of the importance of feeling proud, meaning how the employee is perceived in the workforce. We know it is a critical component to improve overall attitude and morale. We know that we are dealing with pride; and pride enhances a positive attitude, which is the foundation for continuing success.

6. Good Work Environment: Working conditions are very important to the way employees feel about where they work. It’s not just having a good relationship with your colleagues; it’s about having an adequate and regulated temperature at work enjoying the work environment. Gastronomy Temple is aware of it, and by this we really take care about design and space. We don’t want to make our employees feel like they cramped in a “sardine can”. We are going to be a reference in the retail food market not just with our product and customer service, also with our designs and shops.

7. Team Spirit: Gastronomy Temple wants to build a high Team Spirit. To do so, we have different initiatives and ideas such as:

- Build a collage of creative ideas with the "Team" theme. All employees are responsible for submitting a phrase referring to TEAM on a weekly rotation. Each of these ideas (such as TEAM: Total Enthusiasm of All Members or There is no I in Team) is placed on a wall, creating a collage of Team-oriented phrases.

- We will try to create team driven contests and join others that take place around our area. Also, group activities definitely enhance team spirit solely because they must lean upon others and be willing to be someone that others can lean on.
8. Social Gatherings: In Gastronomy Temple we know that scheduled offsite events enhance bonding, and therefore, team spirit, which will impact us by creating a more positive work environment. For instance, Halloween costume parties, picnics, or Christmas parties are only some of the ideas that successfully will bring people together for an enjoyable time. Some others that we might use in the future are softball games (against other companies or among employees, depending on staff size), groups going putt-putt golfing or movie madness.

XI. Finances
(For the numbers refer to the Excel File).

-Financing:

✓ External Resources: We will apply for a ICO loan, from La Caixa. One of the main advantages of these types of loans is that it doesn’t have initial commission. The amount of the requested loan is 150,000 Euros. These will be amortized starting the first quarter with a yearly long-term interest rate of 6.297%. Besides that we will request some short-term loans to cover our assets for the first few years with a yearly interest rate of 6%.

For both cases, we have chosen a fixed interest rate because Spain’s economic instability for the past couple of years pushes investors to be more conservative in what refers to financial policies.

✓ Internal Resources: The rest of our financing will come from our own savings, coming to a total of 150,000 Euros and the rest from business angels, accounting for a 230,000 Euros.

-Scenarios:

In order to study the profitability of our idea, we have established three possible scenarios: low case, base case, best case. The difference in each scenario is the variation of market share, which is the reduction in 20% from the base case and the increase of 20% for the best case.

1. Profit & Loss:

✓ Our Sales Volumes are calculated from our Market Shares
The graph below shows the weight of each of our costs regarding our sales in the base case, for more details, on the other scenarios, see the Excel file:

<table>

</tr>
</tbody>
</table>

The previous graph is an example of how our different costs affect our Profit & Loss Account. The ones that represent the highest changes in the fixed costs are salaries and rent, and the one with the most weight is the variable costs.

2. EBITDA:

The previous graph is a representation on how the EBITDA increases in each scenario, it is clear that in all three scenarios, the EBITDA is positive. If we compare our
EBITDA with other companies in the sector, ours is an EBITDA that falls under the proper levels. It’s important to keep in mind that the EBITDA doesn’t take into account the interest rates of the loans necessary to undertake the project, the recovery of the investment through amortization nor the income tax. This is why we analyzed the Net Profit:

<table>
<thead>
<tr>

<tr>
<td>2016</td>
<td>249,493.00 €</td>
<td>520,345.00 €</td>
<td>690,287.00 €</td>
</tr>
</tbody>
</table>

In the Low Case, Gastronomy Temple has loses until 2014. After that, we will distribute Retained Earnings, equivalent to 30% to all stakeholders, and 70% will be kept in the company for future investments like new lines of business, whether supplying to other businesses, new shops, expanding to other countries.

3. Cash Flows:

Cash flows are a representation of the company’s liquidity. Profitability doesn’t mean liquidity. These numbers will give us the calculation of the Net Present Value and the Interest Rate of Return. In the number shown, there is no problem with liquidity.

In order to accept a project, the Interest Rate of Return must be higher than cero and the Net Present Value must be positive, otherwise, project must be rejected. If we consider these factors, our project is acceptable in all three scenarios; this is shown in the graph below.
As well as, helping us calculate the IRR and the VPN, the cash flows are necessary to calculate the payback and the payback discount period.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
XII. Implementation Plan:

The most relevant activities to be done to be able to implement the business plan and meet its aims are the next:

- **Financial Agreement:** 530,000€ is the initial investment, 380,000€ are internal resources. The other financial agreement is with the bank “LaCaixa”. It is a ICO loan of 150,000 € for four years and it has not got open fee.

We have a long-term credit with a fix interest of 6,297%, and a short term with a fix interest of 6%.

We are going to negotiate the financial agreements in August 2011, we will sign by the end of August 2011. We start with the amortization of the loan in January 2012.

- **Creation of the limited company:** Gastronomy Temple is a limited company and the creation of that is going to be the first week of September 2011.

- **Renting of premises:** Firstly we have study the place where our business is going to be located. Once we have studied it and negotiate the price, we are going to rent it in the first week of September 2011.

- **Requesting and approval licences:** that step is very important for us because without the approval we can’t start with the conditioning activities. We are going to request the licences the first week of September 2011 and it will be approval by the last week of September 2011.

- **Purchasing equipment:** All the equipment necessary for our business are going to be purchase during the first and second week of October 2011, so everything will be ready by middle of December.

- **Agreements with suppliers:** We are going to sign the agreements with food, water, electricity and gas suppliers during the first three weeks of October 2011.

- **Local conditioning:** Conditioning activities are going to start in the second week of October 2011. It will finish at the middle of December with all the decoration ready.

- **Recruitment process:** “Infojob” and “Infoempleo” are the platforms where our job offers are going to be announced for our futures candidates.

Once we have selected the best candidates, we will start with the interviews to select our candidates. The recruitment process is going to start in the second week of November 2011 and it will finished by the last week of November 2011.

During this time, we are going to select as well the driver agency that will provide the drivers for us.

- **Making orders:** Different orders to different suppliers are going to make in the third week of November 2011, so all the products would be ready by middle of December.

- **Training process:** The training is very important for us, because our employees need to have the knowledge and skills for our business. The training process is going to be during the second and third week of December 2011.
-Marketing promotion: Our marketing activities to promote our business are going to start first week of December 2011.

-Business ready to go: During the second and third week of December 2011 when all the conditioning activities would be finished, the equipment would be put in place as well as all the stock, except the perishable food that we will receive the day before to open or even the same day at first time in the morning. All has to be ready to open Gastronomy Temple on 2nd of January 2012.

XIII. Conclusion:

After finalizing the market study, we have found that this business can be very profitable after a couple of years. The success factors involved include our operations and logistics, an excellent marketing campaign, proper use of our finances, but especially, focusing on our customers and what we offer them. This refers to the products, our state-of-the-art facility, services, loyalty and overall experience.

Through this project we have been able to study and realize all the work and effort necessary to undertake a project of this magnitude, all the risks and considerations to be taken into account like economic, which due to the crisis seems to be one of the main influences in starting up a business.

Another important factor is the need for innovation. This industry that we have chosen is very competitive, therefore it is of essence to come up with a differentiating factor that can generate profits. As well as, the trend that seems to be working for all businesses, that is, customer services. Everyday the customer is more demanding on their needs and habits, so having the customer be priority number one is a main success factor.

### OTROS

**Carnet de conducir**

**Informática:**

Entorno Windows y aplicaciones Microsoft office (excell, power point, word, access...)

**Hobbies:**

Mi mayor hobby es el deporte desde los nueve años me incliné por la gimnasia rítmica y entré a formar parte del Club Escuela Rítmica de Oviedo, “CERO”, al que dos años mas tarde empecé a representar en campeonatos de Asturias y posteriormente de España.

Cuatro horas diarias de entrenamiento, competiciones fines de semana y vacaciones repletas de concentraciones, al tiempo que estudiaba y terminaba mis estudios preuniversitarios. Esta etapa tan convulsa de mi vida me enseñó a priorizar y a obtener el máximo partido del tiempo. Trabajar bajo presión, organizar mis horarios sacándoles el máximo partido, lo que me permitió combinar la actividad deportiva y académica con el máximo provecho.

Los éxitos y fracasos, la exigencia propia de la competición fueron mis lecciones de superación personal, trabajo en equipo e individual, además de fomentar mi actitudes ante situaciones extremas y mejorar mi control mental. El comienzo de los estudios universitarios marcaron el final de esa etapa, aunque parcialmente, pues seguí ligada al deporte como entrenadora, liderando a grupos de pequeñas aprendices en las que he tratado siempre de fomentar el espíritu deportivo. Desde los dieciocho años he trabajado de: Auxiliar administrativa, organizadora de eventos festivos y deportivos, azafata en congresos, camarera y entrenadora. Al tiempo que realizaba mis estudios de licenciatura. ¡No le tengo miedo al trabajo ni a los retos que en este se me puedan presentar.

GLOBAL MBA _ EOI

LICENCIADO EN FARMACIA

PERFIL PROFESIONAL

Licenciado en Farmacia y MBA con visión global gracias a cuatro años de experiencia en el extranjero (Reino Unido y Perú). Con gran responsabilidad y capacidad para el aprendizaje, apasionado en Desarrollo de negocios, Marketing / Ventas, gran iniciativa y entusiasmo a la hora de desarrollar trabajos y nuevos proyectos. Disponibilidad total en cualquier proyecto nacional o internacional.

FORMACIÓN ACADÉMICA

Global MBA en EOI Business school, Madrid (2011)

Completado en los mercados emergentes de China y Sur América

Licenciado en Farmacia por la Universidad de Alcalá de Henares, Madrid (2007)

EXPERIENCIA PROFESIONAL

Mayo 2007-Octubre 2010

Whitworth Chemist LTD, Blackpool (Inglaterra)

Cargo: Manager Farmacéutico

Funciones: Responsable de un equipo de 6 personas. Encargado de asignación, seguimiento y revisión de objetivos de ventas en el Norte de Inglaterra (Blackpool). Constante contacto y reuniones con doctores y enfermeras en materia de tratamientos farmacológicos. Supervisor y tutor de la formación de nuevos empleados. Responsable de promoción y desarrollo de ventas.

Durante este periodo de tiempo mi equipo incremento una media del 9 % las ventas por año y se implementaron diferentes servicios en farmacias como: Servicio de contracepción de emergencia, servicio para dejar de fumar, programa de revisión de tratamientos. También participé y colaboré activamente como ponente en reuniones y meetings para distintos grupos y asociaciones de profesionales de la salud como “British liver trust” or “LPCT”, “Blackpool PCT”.

Septiembre 2006- Febrero 2007

Hospital Ramón y Cajal, Madrid (España)
Cargo: Farmacéutico hospitalario.

Funciones: Participación en las rondas con médicos visitando a los pacientes internos y formando parte de las decisiones en materia de tratamientos a enfermos (aportando conocimientos en materia de reacciones adversas, e interacciones peligrosas). Preparación de medicación especial como nutrición parenteral, anti cancerígenos, colirios, etc.

Junio 2003- Septiembre 2003

Hospital Belén de Trujillo (Perú)

Cargo: Farmacéutico hospitalario.

Funciones: Participación activa en diversos programas de salud pública como diagnóstico de diabetes, cese en el hábito de fumar, hipertensión, tuberculosis.
